

The Excellent presented papers of ICMAE2011, ICPEE2011 and ICSGS2011

M00024	Nonlinear Self-excited Combustion Oscillations of a Premixed Laminar Flame Dan Zhao	Session1
M00033	BALL MILLING OF WC-Co POWDER AS INJECTION MOLDING FEEDSTOCK Sri Yulis M. Amin	Session2
E113	Study of Self Phase Modulation in Chalcogenide Glass Photonic Crystal Fiber, Bhawana Dabas, Jivesh Kaushal, Monika Rajput and R. K. Sinha	Session5
M0073	Autogeneration of Fuzzy Logic Rule-base Controllers M. O. Abdalla	Session7
M00134	Pervading Cold Testing of Engines in the Automobile Zone Ankit Khurana	Session 8
M00100	Solution of free vibration equation of Euler-Bernoulli cracked beams by using differential transform method K. Torabi	Session 10
G015	A Review of Software Architecture For Collaborative Software's Mehdi Bahrami	Session 15
E015	Power Systems Analysis Toolbox: Planning and Contingency Mohamad Khaldi	Session3
E053	Design Considerations for Electrostatic Energy Harvester Rita T. Abdulmunam	Session4
E067	Traffic Grooming in WDM Mesh Networks: A Light-Trail Implementation Tanmay De	Session6
E092	Mathematical Programming Based Short Term Load Forecasting Algorithm, Case Study: Turkey 2010 Nurettin Çetinkaya	Session11
E107	Importance of Holidays for Short Term Load Forecasting Using Adaptive Neural Fuzzy Inference System Bayram Akdemir	Session12 同分
E108	Designing and Fabricating of Low Cost Thermoelectric Power Generators Tosawat Seetawan	
E10027	Performance Analysis on Transmission Line for Improvement of Load Flow Ya Min Su Hlaing and Aung Ze Ya	Session17
E20025	Thermodynamic Analysis of Hydrogen Production from Ethanol in Supercritical Water Oxidation	Session18
